26.03.2025: 10.00 - 14.00
27.03.2025: 10.00 - 12.00

The latest PartSens 4.0 news

NEW Datasheet Measuring Head Charger

The small and handy CHARGER for the MEASURING HEAD was successfully introduced last year. Now we have a datasheet which summarizes the technical data. Actually it is more: it points out obligatory use cases and nice-to-have use cases. It is a document for the public and can be freely distributed.

If you want to personalize it to your company, please contact [PMT](#).

Update: System List

Does your customer want to know what options the PartSens 4.0 includes? The SYSTEM LIST offers an overview of the PartSens 4.0 system-specific products. It complements the technical datasheets. The SYSTEM LIST provides compact information about all components, including TapeLift media, archive options, and reference particles. The SYSTEM LIST provides details about article numbers and ordering information. The document is INTERNAL but can be distributed publicly after the article numbers and contact information have been redacted.

For more info on the PartSens 4.0, meet us at our booth!
